We wonder if the people of this country will ever learn that their government has been perverted from its legitimate ends into the rule of mere faction, whose only aim is to plunder the Treasury! Originally based upon principles wonderfully adapted to the advancement of the prosperity and happiness of the people, to trader. elevate their moral and intelectual character, and subserve the great cause of human liberty, our government has become the plaything of demagogues, and the people, deluded by falsehood, and debased by precept and example, are the willing instruments of their own wrong. Subservient to the powerful, and insolent to the weak, we are contemned, abroad, as a nation ruled by the spirit of mobocracylawless and unprincipled; and instead of being looked up to as a government fostering liberty and justice and truth, our example serves only to bring reproach upon republicanism, and to reconcile other nations to forms of government nominally less free, but, practically, more sufferable than the fitful tyranny of a mob.

nal policy of the authors of our government has resulted in divesting virtue and intelligence of their influence over the administration of public affirs, and clothed with power to rule an ruin those who have no fixed interest in the government-who have not the inteligence to distinguish right from wrong, nor the honesty to adhere to principle for principle's sake, is to induce the demagogue to sink himself to their moral level-to play upon their passions and prejudices that he may win their support and in order to retain the popularity, so unworthily won, he shapes the policy of the government to suit the vagaries of the rable-sacraficing thereto every pure element that originally entered into our political system. The patriots who labored to raise the masses to that point of moral and intellectual excellence which fits them for self-government, have been thrust aside are the ruling spirits of this degenerate government. The lower the standard of virtue and intelligence, the easier the knave can rise above the surface, and hence the policy of throwing open the ballot-box to the besotted and ignorant of every clime -for well does the demagogue know that such extension of the right of suffrage ascendency over their opposites, and that therein lie his chances for success.

This policy has worked out its legitimate effects. The high way to political preferdegraded serfs of party-with boasts of the Richmond Whig, utterly repudiates constitution. For the rapid cure of Coughs, Colds, Hoarseness, Brouchitis, Whooping Cough, Asthma and Consumption, 18 universally knows as the best remedy ever yet discovered for every variety of Pulmonary disease. When once tried its superfority over every other medicine of its kind is too apparent to scape observation and where its virtues are known the public no longer heaitste what antidote to emthe public no longer heastate what antidote to em-ploy for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. By its timely use many, may almost all attacks of disease upon the Lun-sor throat, are arrested and thus are saved many thousands every year from a premature grave. No family should be without it, and these who do neglect to provide themselves with a remedy which wards off this dange ous class of diseases will have cause to deplore it when it is too late. Proofs of the surprixing efficacy of the Cherry Pectoral need not be given to the American people,—they have living proofs in every neighborhood. But those who wish to read the statements of those whose whole health has been restored and whose lives have been saved by its use, will find them in my American Almenac which the agent below named has to
